24	rector of the National Institute of Standards and
25	Technology shall establish priorities for the develop-

2	under this subsection on the basis of—
3	"(A) the security risks associated with the
4	use of the system;
5	"(B) the number of agencies that use a par-
6	ticular system or security tool;
7	"(C) the usefulness of the standards, ref-

9	that are users or potential users of the system;
10	"(D) the effectiveness of the associated
11	standard, reference material, or checklist in cre-

13	formation security; or
14	"(E) such other factors as the Director of
15	the National Institute of Standards and Tech-

17	"(3) Excluded systems.—The Director of the
18	National Institute of Standards and Technology may
19	exclude from the application of paragraph (1) any in-
20	formation technology hardware or software system or
21	security tool for which such Director determines that
22	the development of a standard, reference material, or
23	checklist is inappropriate because of the infrequency
24	of use of the system, the obsolescence of the system, or
25	the inutility or impracticability of developing a

1	standard, reference material, or checklist for the sys-
2	tem.
3	"(4) Dissemination of standards and re-
4	LATED MATERIALS.—The Director of the National In-
5	stitute of Standards and Technology shall ensure that
6	Federal agencies are informed of the availability of

9	"(5) Agency use requirements.—The develop-
10	ment of standards, reference materials, and checklists
11	under paragraph (1) for an information technology
12	hardware or software system or tool does not—
13	"(A) require any Federal agency to select
14	the specific settings or options recommended by
15	the standard, reference material, or checklist for
16	$the \ system;$
17	"(B) establish conditions or prerequisites for
18	Federal agency procurement or deployment of
19	any such system;
20	"(C) imply an endorsement of any such sys-
21	tem by the Director of the National Institute of
22	Standards and Technology; or
23	"(D) preclude any Federal agency from pro-
24	curing or deploying other information technology
25	hardware or software systems for which no such

2	been developed or identified under paragraph
